PROFILE

Freelancer junior web developer with two and half years of experience using front-end stacks. I introduce your product to new customers!

My specialty is to create websites for small businesses that want to expand their brand through the internet using a web page as the main way to attract new customers. I use current UI / UX design trends to create pages focused on showing products and services in a minimalist and pleasant way for users combining colors, shadows, layout and animations.

EMPLOYMENT HISTORY

Junior UI Designer and Front-end Developer, White Peak Tech — Miami
Nov 2018 – Present

- Worked as a productive and positive team member in UI/UX design and Front-end developing field.
- Successfully identified, designed and developed client requeriments.
